

## Course Description:

This course applies to persons who are required to enter confined space, for maintenance purposes, for cleaning, inspection or other reasons. It is required by all persons who are required to enter a confined space, as defined by the standard AS2865, or its authorised update or replacement.

## Unit of Competency:

MSMPER200 Work in accordance with an issued permit  
 MSMPER205 Enter Confined Space  
 RIIWHS202D Enter and work in confined spaces

## Entry Requirements:

The ability to;

- read, understand and complete workplace documentation
- explain, describe and verify sometimes complex needs and issues
- speak clearly and unambiguously in English
- understand regulatory requirements
- perform numeracy tasks to the level of measuring gas levels, temperatures and exposure limits
- climb ladders and/or other structures
- wear harnesses and/or other PPE as required
- perform manual handling tasks and strenuous activities

Those that suffer from claustrophobia or vertigo may find it difficult to undertake Confined Space Entry and fulfil the requirements of the course.

## Prerequisites:

MSMPER200 Work in Accordance with an Issued Permit-assessment of this unit may be undertaken in conjunction with MSMPER205 Enter Confined Space

## Course Content:

- |                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                        |

NATIONALLY RECOGNISED  
TRAINING

**Assessment:**

Assessment of knowledge will be conducted by use of a workbook and verbal questioning. Participants will also be required to demonstrate competence through a range of practical activities.

**Delivery Method:**

Face to Face training will be conducted over a period of 8 hours including both theory and practical components. Training can be conducted both on or offsite site provided a training room and confined (or simulated space) are available for use.

**Group Size:**

To ensure quality training and a safe learning environment, the maximum allowable group size is 12 participants.

**Participant Responsibilities:**

Participants are required to be on time for all courses and bring a form of identification such as drivers licence or Medicare card for verification of details listed on the course enrolment form.

For additional Participant Responsibilities, please refer to the Participant Handbook on our website [www.parcor.com.au/participant-resources](http://www.parcor.com.au/participant-resources).

**What information will PARCOR require?**

Due to the assessment requirements of the unit of competency, PARCOR will need to be provided with the following information prior to training commencement;

- Types of confined spaces onsite
- Confined Space Entry Procedures
- Confined Space Entry Permit
- JSEA or SWMS
- List of Confined Space Entry equipment used onsite

**What will your organisation receive?**

- Statement of Attainment and wallet card issued to individual participants who successfully complete the requirements of the unit of competency and have a valid Unique Student Identifier (USI).
- A Nationally Recognised Training Summary for your Health and Safety Office compliance file

**How often should reassessment be conducted?**

AS2865-2009 Confined spaces requires 'persons...be reassessed at appropriate intervals'. Industry regards reassessment on a two-year cycle as good practice.

**Where can I view the unit of competency?**
